§400.1

Test Pit Profile Analysis

§400.1.1

Permit application (single lot) – The property owner or his / her representative will be required to set up an appointment with the Sewage Enforcement Officer (SEO) to arrange for evaluation of the pit, collection of necessary site data, taking of necessary slope readings and notation of all soil mapping information. The owner is required to supply the necessary excavation and any information pertinent to the application. At this time the SEO will try to answer any questions that the owner may have in reference to his system planning or permit procedure.

§400.1.2

Subdivision Planning – The subdivision is required to supply a drawing of the proposed subdivision delineating proposed subsurface disposal areas (drawn to scale) for each lot and shall have physically marked these areas in the field according to their individual location on the subdivision plan. At this point the subdivider will contact the Borough SEO to set up an appointment to arrange for the SEO’s observation of the pit. The developer shall retain a soil scientist, or other qualified individual, to evaluate individual probes. This is typically performed for general site suitability and planning module preparation. If either soil conditions or slopes exist which would indicate unsuitable sites, the subdivider may have to incorporate this area into acceptable surrounding proposed plots. The subdivider must provide all necessary equipment and labor.
